Introduction to our concept

At Ormeggio, our culinary vision is shaped by the exceptional expertise of Executive Chef Victor Moya and Head Chef Federico Caracci, under the guidance of acclaimed Chef Alessandro Pavoni.

Their unwavering commitment to sourcing Australia's most exquisite produce has given life to a menu that seamlessly blends Italian culinary heritage with the subtle elegance of Spanish influences from Chef Victor's background. This dedication culminates in our most ambitious creation yet, aptly titled **"A Tribute to Australian Produce"**.

In celebration of Ormeggio's 15th anniversary, our chefs have reimaged the most iconic signature dishes from over the years, crafting an alternative menu that takes diners on a nostalgic journey through our rich culinary evolution, and so our **"Ormeggio Classic"** was born.

As Head Sommelier, alongside Ennio Di Marco, our Beverage Director, we have carefully curated wine pairings to elevate these extraordinary creations. For the "Tribute to Australia" menu, we have partnered with Australia's finest winemakers to perfectly complement the pristine seafood showcased in every dish. Conversely, the "Ormeggio Classic" menu highlights Europe's most distinguished wines, offering a remarkable journey through the continent's most celebrated wine regions, each selected to harmonize with and enhance the character of every plate.

We invite you to immerse yourself in this fusion of culinary artistry and expertly paired wines, promising an unforgettable dining experience that celebrates excellence, creativity, and heritage.

Sparkling Wines

PETILLANT NATUREL

Pétillant naturel is the oldest method of making sparkling wine. It is also known as the method ancestral or ancestral method. This winemaking technique involves bottling wine that is still fermenting to trap carbon dioxide gas in the bottle, creating a gentle carbonation. Pet-nat wines (as they are called) are becoming more popular as part of the general trend toward natural wine.

2019	San Lurins – Malvasia Istriana IGT Pet-Nat <i>Malvasia Istriana – San Lorenzo Isontino (Gorizia, Friuli-Venezia-Giulia)</i>	140

AUSTRALIA

2021	Haddow Dinnen – ‘One Hundred Days’ <i>Pinot Noir, Pinot Gris – Yorktown (Tasmania)</i>	124
------	---	-----

CHARMAT METHOD

The second fermentation takes place in a pressurized tank, rather than in a bottle, decreasing lees contact and producing larger, coarser bubbles. The wine is filtered under pressure and bottled. Also known as the bulk process or tank method. Expect light, less complex flavours.

NV	Carolina Gatti – Vino Bianco Frizzante ‘Bolle Corsare’ <i>Glera – Ponte di Piave (Treviso, Veneto)</i>	110

The labour-intensive process whereby wine undergoes a secondary fermentation inside the bottle, creating bubbles. All Champagne and most high-quality sparkling wine is made by this process. This process gives flavours of bread dough and toast and makes the wine rich and creamy.

Franciacorta DOCG
